PEDS-730: PEDIATRIC GASTROENTEROLOGY

Aims
This four-week elective will provide you with opportunities to evaluate infants, children, and adolescents with gastrointestinal diseases.

Objectives
Medical Knowledge
- Describe the gastrointestinal pathophysiology and clinical findings of common gastrointestinal disorders

Patient Care
- Independently perform focused and comprehensive patient histories and physical examinations
- Develop a prioritized and inclusive problem list related to gastrointestinal, hepatobiliary, and nutritional disorders

Methods
Medical Knowledge
- Complete reading based on patients seen through literature searches or textbooks
- Participate in teaching sessions and conferences

Patient Care
- Evaluate patients on the consult service
- Attend outpatient clinics and outreach clinics focused in the areas of pediatric gastroenterology
- Participate in gastrointestinal procedures under appropriate supervision

Evaluation
Medical Knowledge
- Post-test results (15%)

Patient Care
- Global performance evaluation (85%)
