

**PROCEDURES GOVERNING THE PHARMACEUTICAL SCIENCES GRADUATE PROGRAM
COLLEGE OF PHARMACY
UNIVERSITY OF NEBRASKA MEDICAL CENTER**

I. Description of Program

The Pharmaceutical Sciences Graduate Program (PSGP) of the College of Pharmacy is intended for students who wish to pursue a course of study leading to the Master of Science or Doctor of Philosophy degree in Pharmaceutical Sciences. The PSGP operates under the auspices of the Graduate College of the University of Nebraska through the University of Nebraska Medical Center (UNMC) Dean for Graduate Studies.

II. Pharmaceutical Sciences Graduate Program Faculty

Members of the PSGP faculty shall include all faculty who hold a full-time, special, courtesy, adjunct, or research track appointment in the College of Pharmacy Department of Pharmaceutical Sciences. All other faculty shall be approved for participation in the PSGP by a two-thirds vote of the PSGP faculty.

III. Pharmaceutical Sciences Graduate Program Committee

- A. The Graduate Committee of the PSGP shall be called the PSGP Committee and consists of five (5) voting members and a non-voting PSGP graduate student representative with the following composition: four (4) elected members, three (3) of whom shall be full-time, state-funded faculty of the Department of Pharmaceutical Sciences; one (1) may be any other full-time PSGP faculty member; the Chair of the Department of Pharmaceutical Sciences who shall be a permanent member; and a PSGP graduate student representative who shall be the American Association of Pharmaceutical Scientists (AAPS) Student Chapter President. Each elected Committee member shall serve a term of three (3) years. Elected members may serve no more than two (2) consecutive terms. Election of PSGP Committee members shall be held in the spring of each year by a vote of the PSGP Faculty.

The PSGP Committee shall elect biennially a Committee Chairperson from among its elected members, and forward its recommendation to the Dean for Graduate Studies for appointment.

- B. The specific duties of the PSGP Committee include the following

1. Review and recommend all adjunct and courtesy faculty nominations to the PSGP faculty.
2. Develop plans for the growth of the PSGP especially the following:
 - a. Curriculum development
 - b. Graduate student recruitment
 - c. Develop short-courses and organize symposia and workshops
 - d. Promote participation of PSGP students in scientific meetings and symposia
 - e. Encourage PSGP students to apply for external fellowships.
 - f. Develop contacts with academic and industrial representatives
3. Review applications for graduate student admission to the PSGP, and submit recommendations regarding admission to the UNMC Dean for Graduate Studies and Research;
4. Appoint Advisory Committees for students pursuing the Master of Science (M.S.) degree;

5. Make recommendations to the UNMC Dean for Graduate Studies for Supervisory Committee appointments for PSGP students pursuing the Doctor of Philosophy (Ph.D.) degree;
 6. Review progress of students in the PSGP for compliance with the guidelines of the UNMC Graduate College and PSGP requirements. This includes timely formation of the student's advisory/supervisory committee, submission of a Program of Study, submission of a proposal for the Comprehensive Examination, annual review, and the thesis/dissertation defense;
 7. Evaluate courses and the curriculum in the PSGP at least once every three years;
 8. Evaluate all PSGP course proposals prior to submission to the UNMC Graduate Council;
 9. Recommend recipients of select graduate student fellowships to the Dean for Graduate Studies;
 10. Select students for teaching assistantships. Preference for funding will be given to students admitted with the Ph.D. degree objective.
- C. The PSGP Committee shall discharge its official actions by a majority vote.

IV. Policies Governing the Admission and Progress of Studies

The PSGP Committee shall be responsible for the admission and academic progress of students admitted to the program. In addition to meeting the following requirements, PSGP students and research advisors must also conform to the general requirements and procedures of the Graduate College of the University of Nebraska.

A. Application for Admission

1. Applications for admission to the PSGP must be submitted online. In addition to the general requirements governing admission to the Graduate College that are detailed in the Graduate Studies Bulletin website (<http://www.unmc.edu/gradstudies/>), the following requirements must also be satisfied:
 - a. To be admitted to the PSGP, applicants must hold the minimum of a baccalaureate degree or its equivalent from an accredited college or university. Applicants should have achieved a minimum cumulative grade-point average (GPA) of 3.0 on a 4.0 scale or equivalent qualification. Under special circumstances, students with a cumulative GPA below 3.0 may be considered for admission to the PSGP and admitted with PROVISIONAL status. The provisional status will be removed by earning a grade of not less than B in all courses in the first two semesters following admission.
 - b. A report of Graduate Record Examination (GRE) scores is required of all applicants seeking admission to the PSGP. Under special circumstances, such as an equivalent examination being taken (e.g., MCAT), this requirement may be waived by the PSGP Chair.
 - c. The Test of English as a Foreign Language (TOEFL) examination for English proficiency is required of all students from foreign language countries unless the applicant is from a country where English is the native language. Applicants must meet the minimum score requirements established by UNMC.
2. A completed application must include the following:
 - a. Application form;
 - b. One official transcript from each university or college attended;
 - c. Three letters of recommendation;
 - d. Official record of GRE and TOEFL (if applicable) scores.

B. Review of Applications for Admission

Applications for admission indicating an intent to pursue studies leading to the Master of Science or Doctor of Philosophy degree with an emphasis in Pharmaceutical Sciences will be forwarded by the UNMC Dean for Graduate Studies to the PSGP Committee for review. Each application will be reviewed by the PSGP Committee. Evaluation of the applications will be based in part upon prior academic performance, GRE score, letters of recommendation, prior research experience, if applicable, and English proficiency. After the application has been reviewed, the PSGP Committee will forward its recommendations to the UNMC Dean for Graduate Studies for appropriate action.

C. Programs of Study

1. Master of Science Degree
 - a. Prior to the appointment of an Advisory Committee, the PSGP Committee shall appoint an interim advisor to counsel the student on course requirements, program requirements, development of a preliminary Program of Study, and other matters pertaining to graduate study.
 - b. Prior to selecting a Research Advisor, each student shall meet with at least six PSGP faculty members to determine the research area that would be most appropriate for his/her research interest(s). The student shall select a Research Advisor who must be a PSGP member, by 4 months from the date of matriculation into the PSGP. The Research Advisor shall act as Chair of the Advisory Committee.
 - c. The Individual Development Plan (IDP) must be submitted by 3 months after matriculation. Ideally, this will be accomplished with the help of the student's research advisor. However, the interim advisor will act in his/her role as temporary mentor to complete the IDP, if needed.
 - d. After consultation with the student, the Research Advisor shall forward to the PSGP Committee a list of proposed members for the Advisory Committee. The Advisory Committee shall be composed of a minimum of three graduate faculty members including the research advisor/chair. Majority of the advisory committee members must be from outside the advisor's research group.
 - e. The advisory committee of students should be formed by 6 months from their matriculation into the program.
 - f. The advisory committee should have its 1st meeting with the student, outline, and approve a program of study by 7 months from their matriculation into PSGP.
 - g. The PSGP Committee will appoint the Advisory Committee and inform the UNMC Dean for Graduate Studies thereof.
 - h. The Advisory Committee has the following principal responsibilities:
 - i. Assist the student in developing a Program of Study.
 - ii. Advise the student regarding research direction and thesis preparation.
 - iii. Administer the Comprehensive Examination.
 - iv. Serve as the Examining Committee for the Final Oral Examination, i.e. thesis defense.
 - i. The Advisory Committee shall meet at least once every 6 months to review the student's progress in coursework and research. A copy of the minutes of all advisory meetings shall be given to the

student's Advisory Committee members, Chair of the PSGP Committee, and the UNMC Dean for Graduate Studies (Sequidor).

2. Doctor of Philosophy Degree

- a. Prior to the appointment of a Supervisory Committee, the PSGP Committee shall appoint an interim advisor to counsel the student on course requirements, program requirements, development of a preliminary program of study, and other matters pertaining to graduate study.
- b. Prior to selecting a Research Advisor, each student shall meet with at least six PSGP faculty members to determine the research area that would be most appropriate for his/her research interest(s). Additionally, students must complete a minimum of two laboratory rotations with research groups of PSGP faculty with a primary appointment in the College of Pharmacy. Each rotation must be for a minimum of two months and a maximum of 3 months, unless exempted by the PSGP Committee prior to selecting a Research Advisor. In addition to the two rotations within the College of Pharmacy, students may choose, unless restricted by recruitment conditions, to complete additional laboratory rotations in research groups of PSGP faculty with a primary appointment outside the College of Pharmacy.
- c. The Individual Development Plan (IDP) must be submitted by 12 months after matriculation. Ideally, this will be accomplished with the help of the student's research advisor. However, the interim advisor will act in his/her role as temporary mentor to complete the IDP, if needed.
- d. The student shall select a Research Advisor who shall be a PSGP faculty member, by 9 months from the date of admission into PSGP. Students recruited by the College through national and international scholarship programs are required to select research advisors from PSGP faculty with a primary appointment in the College of Pharmacy. The Research Advisor, after consultation with the student, shall forward to the PSGP Committee a list of proposed members for the Supervisory Committee. The Supervisory Committee shall be composed of at least four graduate faculty members including the Research Advisor. The majority of the supervisory committee members must be from outside the advisor's research group.
- e. If a student chooses a faculty advisor with a primary appointment outside the College of Pharmacy, that faculty member will be required to reimburse the department for stipend costs associated with time spent in the faculty member's laboratory during the first year stipend period. This reimbursement may be waived by the department chair.
- f. The Supervisory Committee of students should be formed by one year from their admission into the program.
- g. The Supervisory Committee should have its 1st meeting with the student, outline, and approve a program of study by 13 months from their admission into PSGP.
- h. Students who are admitted to the Program and supported by faculty in the form of a research assistantship, the respective faculty will serve as that student's Research Advisor and will guide the student in developing his/her Program of Study. Laboratory rotations for those students will be at the discretion of the student's Research Advisor.
- i. The PSGP Committee will review the proposed membership of the Supervisory Committee and may recommend the appointment of additional members, if deemed advisable. The PSGP Committee will forward its recommendation to the UNMC Dean for Graduate Studies for approval and appointment.
- j. The Supervisory Committee has the following principal responsibilities:

- i. Assist the student in developing a Program of Study;
- ii. Approve the topical area for dissertation research;
- iii. Recommend language and research training and techniques;
- iv. Advise the student regarding research direction and dissertation preparation;
- v. Administer the Comprehensive Examination;
- vi. Serve as the Examining Committee for the Final Oral Examination, i.e. dissertation defense.

j. The Supervisory Committee shall meet at least once every 6 months to review the student's progress in coursework and research. A copy of the minutes of all Supervisory Committee meetings shall be given to the student's Supervisory Committee members, Chair of the PSGP Committee, and to the UNMC Dean for Graduate Studies (Sequidor).

3. Course Requirements

All students are required to register for the PHSC 960 Current Topics in The Pharmaceutical Sciences (Journal Club) and PHSC 970 Seminar in Pharmaceutical Sciences every Fall and Spring semesters.

M.S. Course Requirements: Each M.S. student must complete 3 or 4 core courses as defined by the PSGP Curriculum (<http://www.unmc.edu/pharmacy/programs/psgp/curriculum.html>). The required core courses include PHSC 845 Quantitative Pharmaceutical Analysis, PHSC 885 Physical Pharmacy, PHSC 910 Pharmacokinetics and Biopharmaceutics and IPBS 801 Fundamentals of Biomolecules. IPBS 801 may be waived if the student received a B or better in an undergraduate or graduate biochemistry course prior to admission into the PSGP program. One elective course is required and will be determined with the assistance of the student's advisory committee. The student's advisory committee shall guide him/her in their course requirements. Each M.S. student is expected to complete his/her core course requirement within 18 months after matriculation into the PSGP.

Ph.D. Course Requirements: The PSGP curriculum for Ph.D. students consists of four separate tracks from which students can choose. These curriculum tracks are the following: 1) Drug Delivery and Biopharmaceutics; 2) Biophysics; 3) Medicinal Chemistry; and 4) Clinical Pharmaceutical Sciences. All students in the PSGP must take PHSC 845 – Quantitative Pharmaceutical Analysis and IPBS 801 Fundamentals of Biomolecules. Additional track-specific curriculum requirements are outlined below. The need for any additional courses beyond those outlined in the curriculum will be determined by the student's supervisory committee. The student's supervisory committee shall guide him/her in their course requirements. Each Ph.D. student is expected to complete his/her course requirement within two years after admission into the PSGP.

Drug Delivery and Biopharmaceutics Track:

Required: Pick 2 of 4
 PHSC 885 – Physical Pharmacy
 PHSC 852 – Pharm. Chem.
 PHSC 910 – PK & Biopharm.
 BIOS 806 – Biostatistics

2-Electives

Medicinal Chemistry Track:

CHEM 8246 – Adv. Org. Chem. – Mech.
 PHSC 830 – Advanced Medicinal Chemistry
 2-Electives

Biophysics Track:

Required: Pick 2 of 3
 PHSC 885 – Physical Pharmacy
 PHSC 848 – Nano & Bioimaging
 PHSC 921 – Biophysical Chemistry
 2-Electives

Clinical Pharmaceutical Sciences Track:

PHSC 920 – Applied PK in Transl. Res.
 PHSC 905 – Applied Pharmacogenomics
 BIOS 806 – Biostatistics I
 BIOS 808 – Biostatistics II
 1-Elective

4. Seminars

All PSGP Ph.D. students are required to give one 30-minute seminar involving their graduate research in their third or fourth year of admission to the PSGP. The seminar requirement may be waived by the PSGP Chair when a student provides evidence of giving an oral presentation at a national or international conference. Attendance is mandatory for all departmental, college, CDDN, and defense seminars. Up to four unexcused absences per semester are allowed.

5. Examination Requirements

a. Master of Science Degree

For students pursuing the Master of Science degree in the PSGP, a written Comprehensive Examination covering material in the approved Program of Study is required. An optional, supplemental oral examination may be held by the Advisory Committee. The Advisory Committee will define the format of the Comprehensive Examination, solicit questions from appropriate instructors, and administer the Comprehensive Examination. The Advisory Committee will inform the student in writing of the format and scope of the Examination and provide the names of the examiners. This information will also be distributed to the PSGP Committee. Within seven days following completion of the Examination, the results of the Comprehensive Examination will be provided to the student, the Advisory Committee, the PSGP Committee, and the UNMC Dean for Graduate Studies.

A Final Oral Examination with primary emphasis on a defense of the thesis research project is also required. On approval by the UNMC Dean for Graduate Studies and Research, the Advisory Committee will serve as the Examining Committee for the Final Oral Examination.

No student will be permitted to take the Comprehensive Examination or Final Oral Examination more than twice. Following failure of either of these examinations for the second time, the student shall be dismissed from the PSGP.

b. Doctor of Philosophy Degree

Comprehensive Examination: A Comprehensive Examination is required for all students pursuing the Doctor of Philosophy degree. The purpose of the Examination is to determine the extent of the student's knowledge and ability to apply that knowledge. Students must take the Comprehensive Examination within three years after joining the program. The Examination shall include a written original research proposal in the NIH format on a topic which is different from the research area(s) of the student's advisor. The student will be required to present the specific aims of the proposed topic to his/her Supervisory Committee for their approval prior to writing a full proposal. The full proposal should be submitted to the Committee within two months from the date of approval of the specific aims and should be defended within four weeks after submitting the proposal. The comprehensive examination includes a 25-minute presentation, which is open for all faculty and students to attend. The Examination may also include questions from the student's Program of Study. If the majority of the Committee members decide the student did not defend the proposal to their satisfaction, he/she will be given an opportunity to defend the proposal again. This should be done within three months after the initial defense. If the student does not successfully pass the Comprehensive Examination, he/she will be terminated from the PSGP. In special circumstances, the student may be considered for Master Degree.

The results of the Comprehensive Examination will be provided to the student, the Supervisory Committee, the PSGP Committee, and the UNMC Dean for Graduate Studies and Research. On successful completion of the Comprehensive Examination, the student is eligible to apply for Admission to Candidacy.

Final Oral Examination: A Final Oral Examination or dissertation defense is also required. The Final Oral Examination is a public examination administered by the Supervisory Committee after the student has been admitted to candidacy, all coursework has been completed, and the dissertation has been submitted for approval. Before completion of the degree, there must be evidence that the dissertation material has been submitted for publication in a peer review journal.

No student will be permitted to take the Final Oral Examination more than twice. Following failure of the Examination for the second time, the student shall be dismissed from the PSGP.

D. Procedures for Resolution of Graduate Student Grievances

All student disciplinary actions and grievances shall be handled according to the procedures developed by the UNMC Graduate Council.

V. Pharmaceutical Sciences Graduate Program Faculty Meetings

A. An annual meeting of the PSGP faculty shall be held immediately following the completion of the Second Semester.

B. Additional meetings of the PSGP faculty may be held upon the call of the Chairperson of the PSGP Committee or upon the written request of three (3) members of the PSGP faculty.

VI. Amendment of the Procedures for Governing the Pharmaceutical Sciences Graduate Program

These procedures may be amended by a two-thirds vote of the PSGP faculty, provided that written notice of the amendment with an accompanying statement of the purpose and effect has been distributed to each member of the PSGP faculty at least seven (7) days prior to the vote. The vote may be by written ballot or at a meeting of the PSGP faculty.
