MASTERING IT DOWNTIME VIRTUAL WORKSHOP

May 4, 2026 - 9:00 - 16:00

The Mastering IT Downtime virtual workshop provides an immersive educational where you'll experience live crisis simulations, learn proven strategies, and return to your hospital with the confidence to lead through IT outages.

Participants will Experience:

- **Live Tabletop Exercises:** Work through real downtime scenarios in the room

- **Proven Strategies:** Apply frameworks built from years of hospital emergency leadership

- **Peer Insights:** Learn how other healthcare leaders think and respond under pressure

- **Actionable Takeaways:** Leave with tested strategies you can begin applying immediately

- **Blueprint for Change:** Start right away with a tabletop exercise you can implement to test your organization's downtime readiness.

- **Bonus for Attendees:** Receive a 1:1 review of your current downtime plans to highlight what gaps might be present - with no additional investment!
