ZOONOTIC TRAINING FOR YOUTH IN AG

The University of Nebraska Medical Center, College of Public Health hosts a Youth in Agriculture website that offers training and resources on zoonotic diseases. This information is designed for 4H and FFA members.

Visit go.unmc.edu/yia or scan the QR code with your smartphone to learn more.

WHAT ARE ZOONOTIC DISEASES?

Zoonotic diseases are also known as zoonoses

They are diseases that are caused by germs spread between humans and animals

They are very common across the world

An animal doesn't have to appear sick in order to spread germs

Common zoonoses are Influenza, Salmonella, and E. coli
