

What others are saying

"The fast pace of change in education, research and health care delivery demands that our students and faculty have an environment for learning that fully deploys new technologies and offers space for team-based learning and care. I am pleased for our colleagues at the UNMC College of Pharmacy, for their students and especially for the citizens of Nebraska, who will be the direct beneficiaries of this exciting new facility. Truly transformational learning, research and practice will be realized from this investment."

**Lucinda Maine, Ph.D., executive vice president and CEO,
American Association of Colleges of Pharmacy**

"The University of Nebraska Medical Center's contributions to medicine are not only improving the health and wellness of Nebraskans, but they have made our state an internationally-recognized leader in health care. This investment in the UNMC Center for Drug Discovery and the Lozier Center for Pharmacy Sciences and Education builds on UNMC's past successes and positions our state to make new significant contributions to health care in the area of pharmacy. Congratulations to the entire team at UNMC, and thank you to all the Nebraskans who stepped up to provide the private investment that made the project a reality."

Pete Ricketts, governor of Nebraska

"Congratulations to the University of Nebraska Medical Center on the grand opening of the UNMC Center for Drug Discovery and Lozier Center for Pharmacy Sciences and Education. On behalf of the Nebraska Pharmacists Association, I commend the University's recognition of the importance of continued exceptional, cutting edge research and for progressive education for pharmacists in Nebraska. UNMC's commitment to and recognition of the pharmacy profession as important members of the health care team is impressive."

Joni Cover, J.D., CEO, Nebraska Pharmacists Association

"Infectious disease is one of the most urgent challenges facing the world today. The University of Nebraska Medical Center can lead the way in developing solutions. The opening of the new UNMC Center for Drug Discovery and Lozier Center for Pharmacy Sciences and Education marks an important milestone in our efforts to expand UNMC's international stature and impact. Not only will this facility benefit Nebraskans, our most important stakeholders, but it will foster education, research and drug discovery that will improve the quality of life for people around the world. Congratulations to all involved in this important project, and thank you to our private partners whose generous support made this facility a reality."

Hank Bounds, Ph.D., president of the University of Nebraska

continued on back

"With the opening of the UNMC Center for Drug Discovery and Lozier Center for Pharmacy Sciences and Education, UNMC is taking another step toward becoming a worldwide leader in the fight against infectious diseases. We are now in an even stronger position to prepare the next generation of pharmacists, attract the best and brightest scientists to our state, and develop treatments that will save lives in Nebraska and beyond. On behalf of the Board of Regents, I am incredibly grateful to the generous private donors who made this day possible – and to the talented researchers whose work inside these walls will have a transformative impact around the world."

Kent Schroeder, J.D., chairman, University of Nebraska Board of Regents

"The University of Nebraska Medical Center continues to prove itself a true leader in confronting health care's toughest challenges and cultivating the health care workforce of tomorrow. It is a thrill to welcome the UNMC Center for Drug Discovery and Lozier Center for Pharmacy Sciences and Education to our world-class health care landscape – and celebrate their potential for local and global impact."

David G. Brown, president and CEO, Greater Omaha Chamber of Commerce

"The new College of Pharmacy (building) will serve to perpetuate and enrich state-of-the-art education which is critical to the advancement of health care."

**Joseph D. Williams, distinguished College of Pharmacy alumnus,
former president of Parke-Davis and Warner-Lambert, namesake of Williams Science Hall**
