Benefitting Organizations through Student Senate

The UNMC Student Senate supports student organizations in a variety of ways, including through the BOSS proposals. BOSS stands for Benefitting Organizations through Student Senate and this is a funding mechanism for student organizations for events and initiatives. Proposals can be submitted by individual students on behalf of themselves and/or a group of students or organization(s). Proposals are evaluated on a rolling basis monthly by the UNMC Student Senate Issues Committee, starting in September 2023.

- To enhance your proposal, emphasize the impact of the proposal and how it benefits students. The more likely it is to benefit a greater number of students at UNMC, the more likely your proposal is to be funded.

- BOSS proposals cannot be used toward wages (like payment for interpreters or prizes). However, they can be utilized toward paying speaker fees. Other stipulations for uses of funds may be determined by the UNMC Student Senate Issues Committee.

- This year, we will have a separate category for events and initiatives submitted by a group of student organizations to encourage collaborative efforts. Multi-group events and initiatives will be evaluated separately from the other proposals.

- Lastly, we ask that a member of every organization applying for funds attend ONE of the informational sessions for student organizations monthly (September thru April) and meet with Kiara Kocsis-Gregurich, the Student Organizations Activities Coordinator with the Student Life, Inclusion, and Diversity Office (SLIDO), for your application to be considered during the 2023-24 year. The deadline to apply for funds for the 2023-24 year (for events or initiatives held through August 2024) will be April 1st, 2024.

FOR ANY QUESTIONS RELATED TO BOSS PROPOSALS, CONTACT SHAKER DUKKIPATI, UNMC STUDENT SENATE VICE PRESIDENT.
